CNM2 and CMM2 grades and above

**Facilitated by**  
**Dr Gearóid**  
**Hardy,**  
**Management**  
**Consultant &**  
**Adjunct**  
**Lecturer UCD &**  
**RCSI**

**Autumn**  
**programmes**  
**Thursdays:**

**15th September**

**13th October**

**10th November**

**Closing date by 5pm**  
**1st September 2022**

### Aim of this workshop

To provide participants with the knowledge and skills to build a successful business case and to plan, implement and manage a change or quality initiative.

### Course Objectives

- To be able to recognise what makes a good business case.
- To explore the 8 stage process to build a successful business case.
- To better understand how to make effective resource based decisions.
- To be able to identify and gain support from critical stakeholders.
- To be able to utilise the tools and protocols to support effective communication.
- To be able to create a comprehensive overview of a project using BOSCARD.
- To be able to plan and manage a change or quality project.
- To use the relevant tools for planning and breaking down work into manageable segments.

**Format of the workshop** - Interactive sessions, group discussions, case studies and participants' project experiences will form part of the workshop.

**Virtual delivery workshop** - The design of this interactive virtual workshop ensures that some of the delivery of material / content will be offline to allow for the nature of virtual working. There will be longer breaks to allow participants to work offline and there will be extensive use of break out rooms.

**Application Process** – Register your interest by clicking on the Smart Survey link for one programme date only. Please be advised that registration of interest does not guarantee a place.
