

Engaging an Intergenerational Workforce Webinar Series

The National Clinical Leadership Centre for Nursing and Midwifery are delighted to host this webinar series which will be presented by Dr Mary Collins during which participants will have the opportunity to:

- To understand what a workplace generational cohort is
- To explore the challenges and opportunities of different generations in our workforce
- To understand the 4 key generations in the workforce (Baby boomers, Gen X, Gen Y, Gen Z)
- Practical strategies to leverage the strengths of an intergenerational workforce in the HSE

Dr. Mary Collins

Mary is a Chartered Psychologist, Author and Executive Coach who has been working in the Leadership Development/Talent Management field for 20 years. Her current role as Senior Executive Development Specialist with RCSI Centre for Positive Health involves working with senior leaders in the healthcare sector to develop their management and leadership capabilities through a range of executive development and academic programmes up to PhD level. Mary also leads a successful business psychology practice working in a range of sectors in the area of talent & leadership development.

Mary is passionate about leveraging the strengths of the Multigenerational Workplace and is a renowned key speaker on this topic. Her other research interests are Women in Leadership and Emotional Intelligence and Leadership.
