

# Stay safe at work.

Coronavirus  
**COVID-19**  
Public Health  
Advice

**Do not come to work if you have symptoms of COVID-19 infection, are a contact or are waiting for a test. Remember, the risk doesn't go away when you are out of the clinical area.**

**Keep 2M apart or wear a mask if you cannot keep 2M apart.**

## Travel to work

**If you have to share transport, always wear a face covering.**

**Passengers should sit in the rear of the car, away from the driver.**

## Break times

**Keep 2M from other staff. If you can't keep 2M distance, wear a surgical mask. Keeping your distance is safer.**

## Changing rooms

**Keep your distance from other staff. Do not bring personal items into clinical areas. When you are caring for people, remove your wrist jewellery and fitness bands.**

## Public corridors and meeting rooms

**Do not stand talking in groups in the corridors. Avoid face to face meetings, but, if you must, please maintain 2M social distance.**

**If you cannot keep 2M apart, you must wear a mask. Healthcare staff should wear surgical face masks in public work areas.**

**Stay safe. Protect each other.**
